

# ***Overhaul, Maintenance, Modification & Repair (OMMR) Center***

---

***Colonel Frank C. Davis  
Director, Acquisition Planning &  
Privatization (DCMA-PIA)***

***16 May 2000***

# **Overhaul, Maintenance, Modification & Repair (OMMR) Center**

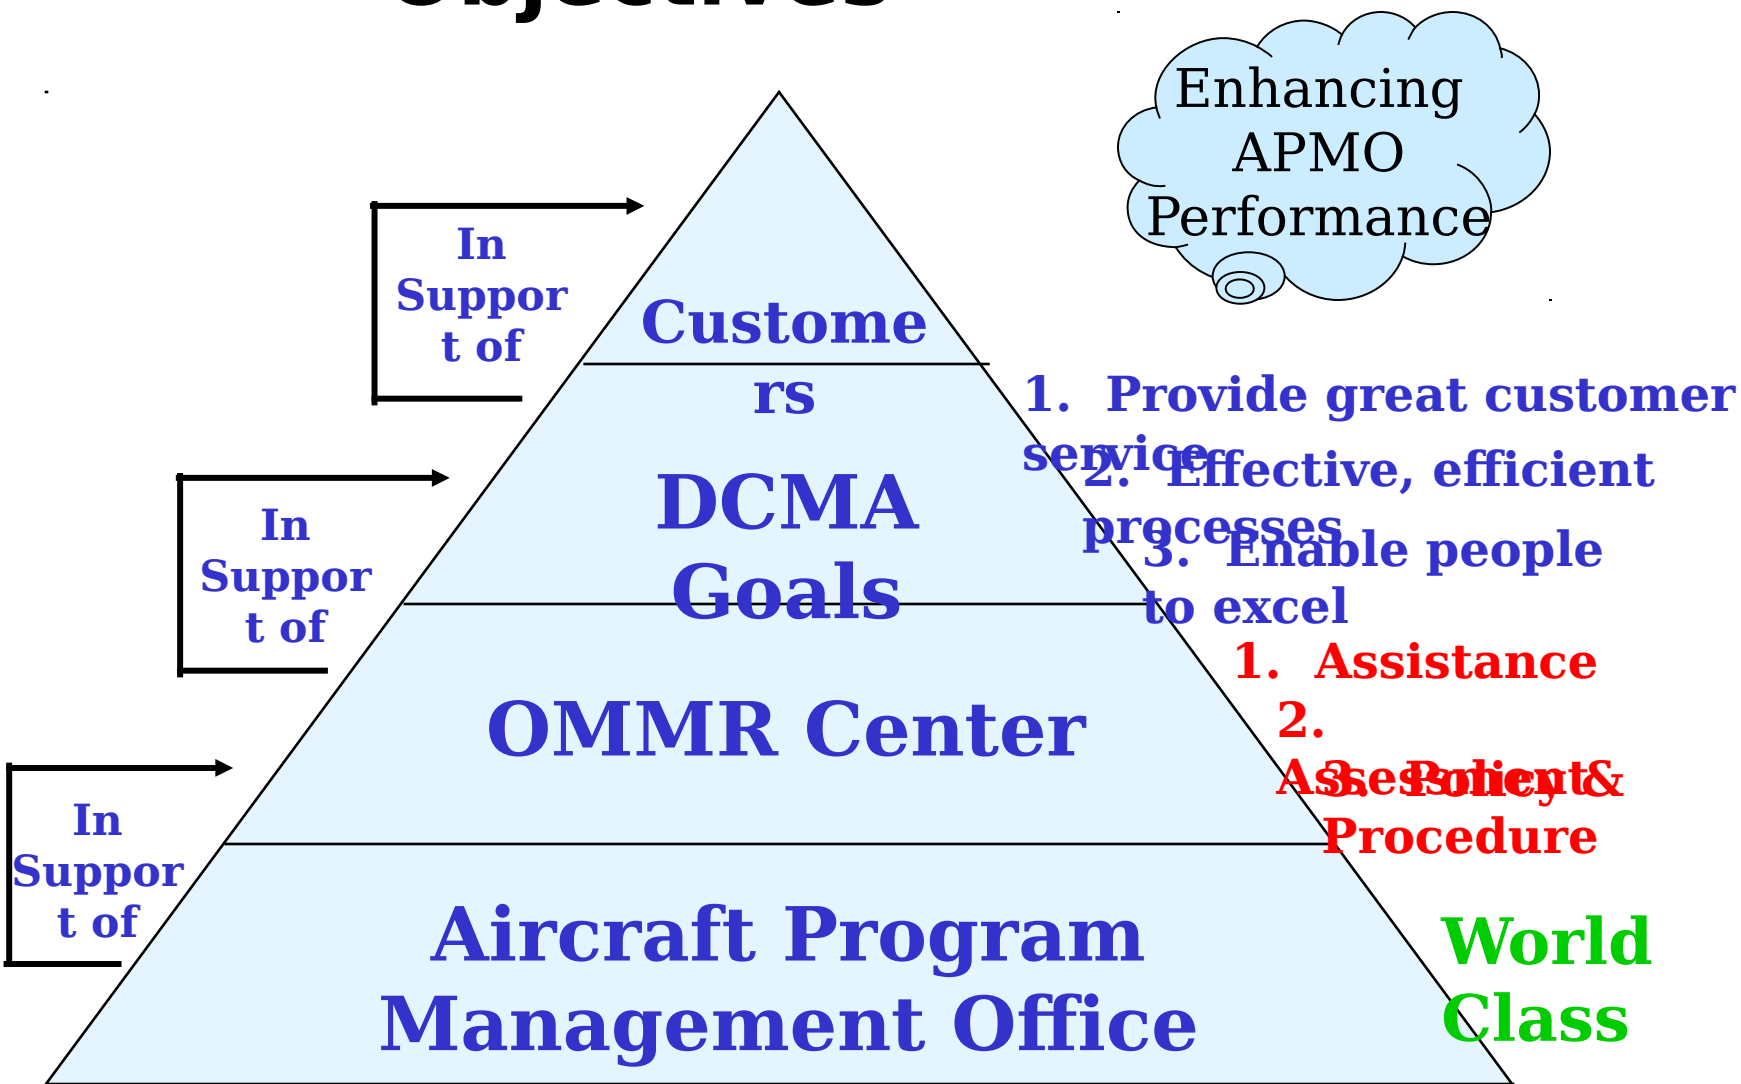

## **Current Direction & Implementation Plan**

- **Mission**
- **Strategies**
- **Linkage to DCMA Goals & Objectives**
- **Immediate Focus**
- **Future**

***The DCMA Overhaul, Modification, Maintenance and Repair Center is responsible for promoting consistent, high-quality contract management services on all OMMR contracts delegated to the Agency.***

- **Assistance** - Provide expert technical assistance to internal and external customers
- **Assessment** - Continually pulse the Agency for health of OMMR processes
- **Policy & Procedure** - Develop for deployment policies and procedures for OMMR processes

# Linkage to DCMA Goals & Objectives

- Primary

- Assist the APMO in becoming a world class OMMR provider
- Identify world class OMMR processes
- Staff to full OMMR authorizations

- Secondary

- Provide day-to-day support to CMOs
- Conduct limited visits to CMOs and Buying Activities
- Develop plan to execute the FY01 performance schedule by Sep 00

## FY01

- **Complete visits to CMOs and Buying Activities**
  - ***Compile customer concerns & process improvement recommendations***
  - ***Conduct GAP analysis between APMO world class and CMO processes.***
  - ***Determine tools required for process improvement and impact to***

**FY01 continued,**

- **Begin metric development to measure health of processes**
  - ***Recommend investment goal for mid-year FY01 implementation with a target date for performance measurement in mid-year FY02***

## **FY02**

- **Policy finalization & deployment**
- **Implement approved metrics and systems for metrics collection and analysis**

# **BACKUP CHARTS**

## **Assist:**

- **Provide expert technical assistance to CMOs with OMMR contracts. In conjunction with District process owners and functional specialists, provide support, conduct assistance visits and respond to inquiries as required**
- **Participate in Early CAS activities to assist buying activities in the development of contracts that reflect the most effective OMMR processes & procedures**
- **Partner with customers to identify & quantify future OMMR workload & potential performance site**
- **Conduct and attend OMMR related conferences, training opportunities and industry symposiums**

## **Assist:**

- **Partner with Customer Liaison Representatives to anticipate and quantify the impact to DCMA of future OMMR workloads**
- **Assist buying activities in the development of effective and efficient contracts by participating in Early CAS activities**
- **Assist with the development and deployment of the New Facility Activation Team (NFAT), as required**

## **Assist:**

- **Provide end-to-end process improvement recommendations to buying activities and DCMA OMMR CMOs**
- **Maintain a matrix of functional experts to assist with Early CAS activities and new facility start-ups**
- **Assist with the development of recommended training/skills lists for OMMR specialists**

## **Assess:**

- **Partner with customers to anticipate and quantify the impact to DCMA of future OMMR workloads**
- **Develop useful metrics for local management of OMMR contracts**
- **Assist in IOAs, MCRs and QSEs**

## **Policy and Procedure:**

- **Provide policy guidance and implementation procedures**
- **Advocate OMMR issues to field facilities and ensure a clear understanding of the Agency vision throughout the OMMR community**
- **Facilitate Over and Above System implementation**

- **Attended *Aviation Week's* Maintenance, Repair and Overhaul (MRO) Conference**
- **Developing PDs for OMMR Center Staff**
- **Assisting DCMA OMMR CMOs**

- **Developing Integrated Plan**
- **Reviewed DCMA OMMR IOA reports**
- **Represented DCMA at OUSD(AT&L) meeting on the O&A process**
  - ***DCMA O&A, Early CAS and Center initiatives lauded***
  - ***Staff package based on DCMA OMMR Center inputs***

**The APMO must be the  
benchmark for world class  
OMMR processes**

To help accomplish this, the APMO will  
use the OMMR Center process champions
